RED-HAIRED, FAIR-SKINNED PEOPLE GET SKIN CANCER MORE OFTEN THAN PEOPLE WITH BLACK HAIR. RESEARCHERS LOOKED AT DIFFERENT- COLORED HAIR CELLS IN A LAB TO FIND OUT WHY. WHAT THEY DISCOVERED IS THAT FAIR-SKINNED AND DARKER PEOPLE HAVE TINY CHEMICAL DIFFERENCES IN THEIR HAIR AND SKIN PIGMENTS -- BLONDES AND REDHEADS HAVE RED MELANIN PIGMENT WHILE DARK-HAIRED PEOPLE HAVE BLACK MELANIN. WHEN RESEARCHERS TESTED THESE TWO KINDS OF MELANIN WITH AN ULTRA-VIOLET LASER TO MIMIC THE SUN'S RAYS, THEY FOUND THAT THE RED PIGMENT WAS MORE REACTIVE. THE UV LIGHT PRODUCED MORE OF THE HARMFUL COMPOUNDS CALLED "FREE RADICALS" IN THE RED MELANIN --WHICH MAY EXPLAIN WHY FAIR-SKINNED PEOPLE SUFFER SKIN DAMAGE AND SKIN CANCER MORE EASILY. BUT EXPERTS AGREE -- NO MATTER WHAT YOUR HAIR COLOR, IT'S WISE TO SLATHER ON SUNBLOCK BEFORE HEADING OUTDOORS BECAUSE SUN EXPOSURE ALWAYS INCREASES YOUR SKIN CANCER RISK FOR ALL PEOPLE.

AS A DIABETIC, RUSSELL SMITH THOUGHT THE ONLY NUMBER HE NEEDED TO WORRY ABOUT WAS HIS BLOOD SUGAR. CHRONIC LEG PAIN TAUGHT HIM OTHERWISE... "MY LEG PAIN HAD GOTTEN SO BAD THAT IT WAS ACTUALLY KEEPING ME FROM LIVING THE LIFE THAT I WANTED TO ENJOY." VO: TO FIND OUT WHAT WAS CAUSING THE LEG PAIN, SMITH WENT TO A FREE LEGS FOR LIFE SCREENING WHERE AN ABI TEST REVEALED PERIPHERAL ARTERIAL DISEASE OR PAD - HARDENING OF THE ARTERIES IN HIS LEGS WHICH WAS RESTRICTING BLOOD FLOW TO HIS FEET, CAUSING HIS LEGS TO HURT. "PATIENTS NEED TO BE PROACTIVE FOR THE DIAGNOSIS OF PERIPHERAL ARTERIAL DISEASE BECAUSE KNOWING YOUR ANKLE BRACHIAL INDEX IS CAN SAVE YOU FROM AMPUTATION, HEART ATTACK, STROKE." DURING NATIONAL VASCULAR DISEASE AWARENESS MONTH IN SEPTEMBER, INTERVENTIONAL RADIOLOGISTS ARE PROVIDING FREE ANKLE BRACHIAL INDEX TESTS THROUGH THEIR NATIONAL LEGS FOR LIFE PROGRAM. THE ABI TEST COMPARES THE BLOOD PRESSURE IN YOUR ARM TO THE BLOOD PRESSURE IN YOUR ANKLE. IF YOUR ANKLE'S PRESSURE IS LOWER, YOU MAY HAVE PAD. "PATIENTS WHO SHOULD GET SCREENED FOR PERIPHERAL ARTERIAL DISEASE ARE DIABETICS, SMOKERS, HIGH BLOOD CHOLESTEROL, HIGH BLOOD PRESSURE, PEOPLE WHO ARE OBESE OR LEAD A SEDENTARY LIFESTYLE, PEOPLE WITH A FAMILY HISTORY." OFTEN, ALL THAT IS NEEDED TO TREAT

PERIPHERAL ARTERIAL DISEASE IS AN EXERCISE PROGRAM, MEDICATION, OR QUITTING SMOKING. IN MORE ADVANCED CASES, NON-SURGICAL ANGIOPLASTY AND STENTING IN THE LEG CAN OPEN THE ARTERY, RESTORING BLOOD FLOW. DUE TO HIS ABI TEST RESULTS, SMITH'S PAD WAS DETECTED EARLY AND HE WAS ABLE TO GET TREATMENT QUICKLY. "IT'S BEEN QUITE AN EXPERIENCE GETTING MY MOBILITY AND MY HEALTH BACK AND BEING ABLE TO INTERACT WITH MY FAMILY AGAIN."

NEW RESEARCH SUGGESTS THAT BREAKFAST MAY HELP WITH WEIGHT CONTROL, BUT ONLY IF YOU EAT CEREAL. OVER 2,000 GIRLS KEPT FOOD DIARIES SO RESEARCHERS COULD ANALYZE THEIR DIETS OVER A 10 YEAR PERIOD. WHAT THEY FOUND WAS SURPRISING -- BREAKFAST EATERS WERE LESS LIKELY TO BE OVERWEIGHT, BUT ONLY IF THEY ATE CEREAL. NON-CEREAL BREAKFASTS DID NOT HELP WITH WEIGHT CONTROL. AND CEREAL MAY BE GOOD FOR WOMEN OF ALL AGES -- A SECOND STUDY LOOKED AT OVER 4000 ADULTS AND FOUND THAT WOMEN WHO ATE CEREAL FOR BREAKFAST WERE 30 PER CENT LESS LIKELY TO BE OVERWEIGHT. CEREAL EATERS ALSO HAD MORE FIBER AND MORE CALCIUM IN THEIR DIETS, IN PART DUE TO THE NON-FAT OR LOW-FAT MILK POURED ON TOP. BUT THE BIGGEST BENEFIT TO EATING CEREAL MAY BE IN WHAT YOU ARE NOT EATING. CEREALS CONTAIN FEWER CALORIES AND LESS SATURATED FAT THAN DONUTS OR BACON AND EGGS. BUT EXPERTS SAY NOT ALL BREAKFAST CEREALS ARE EQUALLY BENEFICIAL -- YOU SHOULD LOOK FOR CEREALS HIGH IN FIBER AND LOW IN SUGAR FOR MAXIMUM BREAKFAST HEALTH BENEFITS.

BY STUDYING THE LYMPH NODES OF BREAST CANCER PATIENTS, RESEARCHERS FOUND THAT WOMEN WHO STAYED CANCER-FREE HAD SPECIFIC AND UNIQUE PATTERNS OF IMMUNE CELLS WITHIN THEIR NODES. 85 TO 90-PERCENT OF WOMEN WITH FAVORABLE PATTERNS WERE DISEASE FREE AFTER 5 YEARS. "KICKING AND SCREAMING A FEW DAYS AFTER SCHOOL STARTS AND UNFORTUNATELY HAVE PUT HER ON THE BUS THAT WAY, WHICH IS DIFFICULT, BUT I WALK AWAY, DON'T LET HER SEE MY TEARS, BUT THE TEARS FLOW. BUT I THINK IT'S JUST THE ATTACHMENT THAT IS THE PROBLEM." AND, DR. RONA NOVICK, A CHILD PSYCHOLOGIST, SAYS MOST CASES OF SCHOOL ANXIETY ARE IN FACT SEPARATION ANXIETY OR SOCIAL ISSUES...AND THEY CAN TAKE ON VERY REAL PHYSICAL COMPLAINTS. ANYTHING FROM TAKING LONG TO GET DRESSED IN THE MORNING TO OPEN REFUSAL AND WARFARE TO SOBBING, AND ONCE THE KIDS GET INTO THE SCHOOL BUILDING IT MAY MANIFEST ITSELF WITH SYMPTOMATIC SYMPTOMS, WANTING TO GO TO THE NURSE, HAVING A BELLY ACHE, HAVING A HEADACHE, FINDING BASICALLY ANY EXCUSE THAT CAN GET YOU OUT OF THE BUILDING." "WHEN SHE IS IN SCHOOL THE TUMMY ACHES BECOME A REAL PROBLEM FOR HER, I THINK THAT'S HER WAY OF SHOWING HOW SHE FEELS AND THE BURSSES OFFICE DOES DEFINITELY HELP WITH THAT, THEY KNOW DON'T CALL MOMMY IN LESS IT'S AN EMERGENCY BECAUSE IF SHE DOES, IF I GO AND PICK HER UP, SHE KNOWS SHE CAN GET AWAY WITH THAT EVERY DAY." SO ONE KEY FOR PARENTS IS TO MAKE SURE YOUR CHILDREN KNOW THEY HAVE TO GO TO SCHOOL...BUT...EMPOWER THEM BY ENCOURAGING THEM TO TALK ABOUT THEIR EXCITEMENT AND FEAR, AND VALIDATE THEIR CONCERNS."THERE IS A TENDENCY FOR PARENTS TO WANT TO MINIMIZE ANXIETY, TO MAKE EVERYTHING OKAY, SCHOOL WILL BE GREAT, DON'T WORRY, IT'S SILLY TO WORRY, THAT NOT ONLY DOESN'T HELP A CHILD, BUT IT MAKES THEM FEEL FOOLISH AND UNWILLING TO COME FORWARD AND TALK ABOUT IT." EMPLOYEE: \$3.41 THE STATE OF NEW JERSEY IS CRACKING DOWN TOO, VISITING 400 STATIONS IN THE PAST WEEK AND FINDING A VARIETY OF VIOLATIONS. THEY SPECULATE THAT STRESS MAY REDUCE CANCER BY ALTERING HORMONE LEVELS. CHRONIC STRESS IS BELIEVED TO LOWER BLOOD LEVELS OF THE FEMALE HORMONE ESTROGEN, A KNOWN STIMULANT FOR MANY BREAST CANCERS. THIS NEW STUDY CONFLICTS WITH PREVIOUS FINDINGS THAT HAVE SHOWN STRESS HAD NO RISK EFFECT, OR MAY EVEN INCREASE A WOMAN'S RISK FOR CANCER. THE AUTHORS SAY THESE CONFLICTING RESULTS MIGHT BE EXPLAINED BY THE DIFFERENT TYPES OF STRESS MEASURED. MULTIPLE SCLEROSIS IS A DEGENERATING DISEASE OF THE NERVOUS SYSTEMS THAT AFFECTS ABOUT FIVE HUNDRED THOUSAND AMERICANS-- OVER TWO THIRDS OF WHOM ARE WOMEN. WHILE RELATIVELY LITTLE IS KNOWN ABOUT THE DISEASES CAUSES AND RISKS, NEW RESEARCH SHEDS SOME LIGHT ON WHO GETS MS, AND WHEN. A STUDY COMPARING WOMEN WHO DEVELOPED MULTIPLE SCLEROSIS TO THOSE WHO DID NOT REPORTS THAT THE RATE OF M-S OVER A THREE YEAR PERIOD WAS FORTY PERCENT LOWER FOR BIRTH CONTROL PILL USERS THAN NON-PILL-USERS. THEY ALSO NOTED THAT WOMEN WERE LESS LIKELY TO BE DIAGNOSED WITH MS WHILE THEY WERE PREGNANT, AND MORE LIKELY TO START TO SHOW SIGNS OF THE DISEASE IN THE SIX MONTHS AFTER A PREGNANCY. BECAUSE OF THESE VARIATIONS THE AUTHORS SPECULATE THAT THE FLUCTUATION OF FEMALE HORMONES MAY BE LINKED TO MS. THEY THEORIZE THAT INCREASED ESTROGEN IN THE BODY EITHER NATURALLY DURING PREGNANCY OR IN THE FORM OF ORAL CONTRACEPTIVES - MIGHT DELAY THE ONSET OF THE DISEASE.

NEW RESEARCH SHOWS WALNUTS ARE NATURAL SOURCE OF MELATONIN. SCIENTISTS ALSO STUDY MELANTONIN'S EFFECTS ON CANCER. RESEARCH AT THE UNIVERSITY OF TEXAS HEALTH SCIENCE CENTER IN SAN ANTONIO HAS PROVEN WALNUTS ARE A NATURAL SOURCE OF MELATONIN. IN FACT, ACCORDING TO THE NEW STUDY (PUBLISHED IN THE JOURNAL NUTRITION), WHEN WALNUTS ARE CONSUMED, BLOOD LEVELS OF MELATONIN INCREASE THREEFOLD. MANY THINK MELATONIN IS SOMETHING YOU CAN TAKE TO FALL SLEEP AFTER LONG AIRPLANE FLIGHTS, BUT SCIENTISTS ARE STUDYING HOW THIS VITAL MOLECULE ACTUALLY FIGHTS DISEASES LIKE CANCER, MAY IMPACT DISEASES ASSOCIATED WITH AGING AND LIKELY WILL ALLOW PEOPLE TO LIVE HEALTHIER LIVES. MELATONIN AND OMEGA-3S, BOTH OF WHICH ARE IN WALNUTS, STARVE CANCERS BECAUSE THEY PREVENT THE GROWTH OF CANCER CELLS. RESEARCHERS BELIEVE THAT IT MAY BE THE SYNERGY IN WALNUTS - THE COMBINATION OF NUTRIENTS, PLUS THE MELATONIN - THAT MAKES THEM SO BENEFICIAL. ADDITIONALLY, MELATONIN HAS BEEN WIDELY, EXPERIMENTALLY, TESTED IN MODELS OF ALZHEIMER'S DISEASE AND PARKINSON'S DISEASE. THESE STUDIES SHOW THAT THE DEGENERATIVE CELLULAR CHANGES THAT OCCUR IN THE BRAIN CAN BE PREVENTED OR DELAYED FROM DEVELOPING WITH MELATONIN. OTHER RECENT STUDIES HAVE SHOWN WALNUTS REDUCE THE

RISK OF HEART DISEASE BECAUSE OF THEIR COMBINATION OF HEALTHY NUTRIENTS, INCLUDING OMEGA-3 FATTY ACIDS AND ANTIOXIDANTS.

THE STUDY FOLLOWED A GROUP OF OLDER, ACTIVE RUNNERS, AVERAGE AGE 62 YEARS OLD, AND A GROUP OF PEOPLE WHO DID NOT RUN. EVERY YEAR FOR 14 YEARS, STUDY PARTICIPANTS ANSWERED QUESTIONS ABOUT THEIR HEALTH, THEIR EXERCISE HABITS, AND HOW MANY INJURIES THEY HAD SUFFERED DURING THAT YEAR. THE STUDY ALSO ASKED QUESTIONS ABOUT PAIN AND THE DIFFERENCE BETWEEN THE TWO GROUPS WAS SURPRISING. OVER THE 14-YEAR STUDY, THOSE SENIORS WHO WERE REGULAR RUNNERS REPORTED 25 PER CENT LESS MUSCLE AND JOINT PAIN THAN THEIR LESS-ACTIVE PEERS. MELVIN RAIDER LEARNED THE HARD WAY. HOW THE CURRENT EST FOR PROSTATE CANCER CAN BE UNRELIABLE. LIKE MOST MEN IN THEIR 60'S, RADER HAS A YEARLY PSA TEST, THAT MEASURES PROSTATE SPECIFIC ANTIGEN IN THE BLOOD, A CHEMICAL PRODUCED BY THE PROSTATE. A HIGH LEVEL CAN BE A SIGN OF CANCER. SO, WHEN RADER'S PSA LEVEL'S SPIKED, HIS DOCTOR ORDERED A BIOPSY. RADER: I WAS VERY WORRIED, I COULDN'T SLEEP. BUT THE BIOPSY SHOWED THERE WAS NO CANCER. THIS HAPPENS A LOT. 80% OF POSITIVE PSA RESULTS ARE FALSE ALARMS. MCKENZIE: A GROUP OF RESEARCHERS THOUGHT THEY COULD DO BETTER. THEY RELIED ON ARGUABLY THE MOST SENSITIVE AND ACCURATE DETECTION INSTRUMENT EVER DEVELOPED: THE BODY'S OWN IMMUNE SYSTEM. WE NORMALLY THINK OF THE IMMUNE SYSTEM AS IDENTIFYING AND FIGHTING HARMFUL GERMS AND VIRUSES. BUT IS ALSO ORCHESTRATES A MAMMOTH RESPONSE TO CANCER, RELEASING THOUSANDS OF CHEMICALS INTO THE BLOODSTREAM TRYING TO DESTROY THE TUMOR. THIS NEW BLOOD TEST LOOKS FOR 22 OF THESE CHEMICALS THAT SPECIFICALLY FIGHT PROSTATE CANCER. WHEN THEY'RE DETECTED, AS SHOWN ON THIS PANEL, IT SEEMS TO BE MUCH MORE RELIABLE INDICATOR THAN THE PSA TEST, WHICH MEASURE JUST ONE CHEMICAL, THAT MAY OR MAY NOT MEAN CANCER. DR. ARUL CHINNAIYAN/UNIV OF MICHIGAN MEDICAL CENTER: THESE 22 MARKERS ENDED UP BEING THE BEST COMBINATION OF MARKERS THAT ALLOWED US TO MOST EFFECTIVELY DIAGNOSE PROSTATE CANCER. COMPARED TO THE PSA RESULTS, PRELIMINARY FINDING SHOW THE RATE OF FALSE ALARMS WITH THE NEW PROSTATE BLOOD TEST IS ONLY ABOUT 12%. DR. MARK RUBIN/BRIGHAM & WOMEN'S HOSPITAL: WE VERY EXCITED ABOUT THIS TEST. THIS REPRESENTS A NEW PARADIGM, A NEW WAY TO LOOK AT CANCERS. IF THE BLOOD TEST LIVES UP TO ITS POTENTIAL IN

YOU KNOW THAT "NEW CAR SMELL" YOU LOVE SO MUCH. SCIENTISTS SAY THAT SMELL IS CAUSED BY TOXIC CHEMICALS... SOME OF THEM CANCER-CAUSING. THAT SMELL COMES FROM PLASTIC, GLUE AND CARPETING... AND GIVE OFF TWO CARCINOGENS: BENZENE AND FORMALDEHYDE. THE U-S DOESN'T HAVE ANY STANDARDS RESTRICTING THOSE MATERIALS, BUT RESEARCH SHOWS THAT SOME CARS CONTAIN 128 TIMES THE LEGAL LIMIT. THE HARMFUL GASES ARE WORST ON HOT DAYS.. SO OPENING YOUR WINDOWS OR VENTS WILL HELP CLEAR THE GASES OUT. ALSO, THE SMELL CAN BE HAZARDOUS TO PREGNANT WOMEN AND INFANTS. RESEARCHERS ALSO WARN NOT TO USE STAIN GUARDS OR CLEANING SOLUTIONS IN A NEW CAR. THE GOOD NEWS.. THAT "NEW CAR SMELL" IS GONE AFTER 6 MONTHS AND THE HARMFUL CHEMICALS WEAR OFF.

SCIENTISTS HAVE REPEATEDLY SHOWN THAT A WELL BALANCED DIET IS GOOD FOR YOUR HEALTH. NOW, THEY SAY, WE CAN ADD LUNG CANCER TO THE LIST OF DISEASES THAT FRUITS AND VEGETABLES HELP PROTECT US FROM. A STUDY OF OVER 3,000 LUNG CANCER PATIENTS AND HEALTHY ADULTS FOUND THAT PEOPLE WHO EAT HIGH AMOUNTS VEGETABLES LIKE CHICK PEAS, BROCCOLI, SPINACH AND ALSO SOY PRODUCTS WERE FORTY-SIX PERCENT LESS LIKELY TO HAVE LUNG CANCER. THE PROTECTIVE EFFECTS FROM THESE VEGETABLES ARE THOUGHT TO BE FROM CHEMICALS CALLED "PHYTOESTROGENS" WHICH ACT LIKE THE NATURAL HORMONE ESTROGEN AND SLOW CERTAIN TUMORS FROM GROWING. THIS NEW RESEARCH COINCIDES WITH OTHER RECENT STUDIES THAT HAVE SHOWN VEGETABLE COMPOUNDS CALLED "ISOTHIOCYANATES" TO BLOCK LUNG CANCER GROWTH IN ANIMALS, AND THAT EATING AT LEAST 5 VEGETABLE SERVINGS A DAY IS LINKED WITH A 50 PER CENT REDUCTION IN PANCREATIC CANCER RISK AS WELL.

EXPERTS SUGGEST THAT WHEN YOU'RE PLANNING YOUR NEXT MEAL, HEAD FOR THE PRODUCE SECTION FIRST. FRUITS AND VEGETABLES MAY BE EVEN BETTER FOR US THAN WE ALREADY KNOW.
